	Captains Signature	<input type="text"/>	Captains Signature

Please note the following rule change:-

At the end of **either** the first set **or** the second set of three games, teams have the option to replace any player with their reserve player. The incoming player takes on the playing position of the outgoing player. This option may only be used once in a match. ie a player who played in the first set of three and was then replaced for the second set of three will not be able to come back for the third set of three
