**Notes:-**

The format is 2 sets of 6 singles. Players are selected on a frame by frame basis by their captain. Once the first set of six singles is complete captains have the choice of selecting new players, the same players or a combination of the two. The away captain must ensure that no one plays the same player twice.

In the event of a draw captains will nominate one player each to play a decider. This time it does not matter if the players selected have played each other earlier in the match.

Whilst not obligatory, the committee would like all 12 frames to be completed so teams get to experience of playing a complete match. As stated at the AGM, this is a trial season with three different formats being tested. We can then vote on which is preferred at the next AGM.
