### Notes:-

At the start of the match the home captain lists his first five players and immediately after the away captain does the same. Frames 1 to 5 (set 1) are then played. At the end of set one the home captain chooses his next five players followed immediately by the away captain. These five may be new players, the same players or a combination of the two. Frames 6 to 10 (set 2) are then played. At the end of set two the home captain chooses his next five players followed immediately by the away captain. Once again, these five may be new players, the same players or a combination of the two. Frames 11 to 15 (set 3) are then played.

Note:- The away captain must ensure that no one plays the same player twice.

Whilst not obligatory, the committee would like all 15 frames to be completed so teams get to experience of playing a complete match. As stated at the AGM, this is a trial season with three different formats being tested. We can then vote on which is preferred at the next AGM.

All losers of their **FIRST MATCH PLAYED** will be entered into the Essex KO Plate.
